Description

2023 Polaris General XP 1.0L 4x4 Gas CVT

Performance

- 999cc ProStar twin-cylinder engine delivering strong all-around power and acceleration
- On-demand AWD (4x4) system for traction across mud, sand, and rocky terrain
- CVT automatic transmission for smooth, responsive power delivery
- High ground clearance with long-travel suspension for trail comfort and control
- Engine braking system for improved downhill stability and control

Capability / Utility

- Crossover design combining sport performance with utility hauling capability
- Towing capacity suitable for light equipment and recreational loads
- Durable chassis built for mixed terrain use and work applications
- Large cargo bed for gear, tools, or trail equipment

Tech / Features

- Digital display with vehicle stats and ride information
- Select trims include Polaris Ride Command touchscreen with GPS navigation
- Bluetooth connectivity for calls, music, and device pairing
- USB charging ports for device power on the trail

Comfort / Safety

- Side-by-side seating with adjustable driver position
- Full roll cage (ROPS-certified) for occupant protection
- Seatbelt system designed for off-road use
- LED lighting for improved visibility in low-light conditions
- Water-resistant interior materials for easy cleaning after off-road use
