Description

2026 Bentley Flying Spur Azure 4.0L AWD PHEV AT

Performance

- 4.0L twin-turbocharged V8 plug-in hybrid (PHEV) powertrain.
- Combines gasoline and electric power for strong acceleration and smooth power delivery.
- All-Wheel Drive (AWD) system enhances traction and stability in various driving conditions.
- Advanced automatic transmission provides seamless gear changes.
- Multiple drive modes allow drivers to tailor performance and efficiency.
- Adaptive air suspension delivers a refined ride while maintaining excellent handling.
- Rear-wheel steering improves maneuverability at low speeds and stability at higher speeds.

Infotainment & Technology

- Large high-resolution touchscreen infotainment system with intuitive controls.
- Wireless Apple CarPlay and Android Auto compatibility.
- Integrated navigation with real-time traffic information.
- Premium audio system engineered for exceptional sound quality.
- Digital driver information display with customizable views.
- Wireless smartphone charging capability.

- Multiple USB-C charging ports for front and rear passengers.
- Voice control functionality for navigation, media, and vehicle settings.

Comfort & Luxury

- Azure trim emphasizes passenger comfort and wellness.
- Handcrafted leather upholstery throughout the cabin.
- Heated, ventilated, and massaging front and rear seats.
- Multi-zone automatic climate control system.
- Power-adjustable seats with memory settings.
- Soft-close doors for effortless operation.
- Panoramic glass roof enhances cabin openness and natural light.
- Extensive use of premium wood veneers and metal accents.

Safety & Driver Assistance

- Adaptive cruise control with stop-and-go functionality.
- Lane-keeping assistance and lane departure warning.
- Blind-spot monitoring system.
- Traffic sign recognition.

- Surround-view camera system for easier parking and maneuvering.
- Front and rear parking sensors.
- Automatic emergency braking and collision mitigation features.
- Advanced occupant protection systems and multiple airbags.

Hybrid Features

- Plug-in hybrid system allows for electric-only driving capability.
- Regenerative braking helps recover energy during deceleration.
- Ability to charge from external power sources for increased electric range.
- Intelligent power management balances performance and efficiency automatically.
